## McDawin Constructors, Ltd. Board of Health Appointed Board of Trade Busy

**New Firm Will Put East Half 10-46-14 on the Market as a Sub-Division**

**Will Start Work on Automobile Factory as soon as Terms of Contract are Complied With**

During the past week The Times has had pleasant visits from the officers of the McDawin Constructors Limited, who informed us that the company has been re-organized, and the capital has been increased from \$10,000 to \$250,000, which is divided into 20,000 eight per cent. preference shares of \$10 each, and \$5,000 ordinary shares of \$10 each.

The directors of the company now are: President, Hulton E. McDawin, Edmonton, Alta., Architect.

1st Vice-President, Alexander Macmillan, Edmonton, Alta., Gentleman.

2nd Vice-President, Robert King McDawin, Edmonton, Alta., Builder.

James Houston, Edmonton, Alta., Engineer.

Harold A. Ross, Edmonton, Alta., Appraiser and secretary.

These gentlemen were in the city for the purpose of paying up several small debts that had been incurred by the former company, and to look over the land of the proposed subdivision, and also to locate the site for the automobile factory, which they claim they have the contract to erect for the Vulcan Corporation of Canada. One of the conditions of this contract is that the work shall commence as soon as a deposit of \$5,000 is made in one of the banks in the city, and we were informed that this money had been wired for. The contract price is between \$1,250,000 and \$1,500,000, and a portion of the building is to be completed by November 1st. As soon as the deposit of \$5,000 is made a gang of approximately 100 men will be placed on the construction and the work will be rushed.

The proposed site contained about 6 1/2 acres, and will be located on blocks 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 and 13, in the Weller addition, and it is announced that a spur will run from the main line of the C.P.R. through blocks 15, 20, 21, 22, 23 and 24.

A neatly printed prospectus has been issued which explains the financial standing of the company, and the capital has been increased from \$10,000 to \$250,000, which is divided into 20,000 eight per cent. preference shares of \$10 each, and \$5,000 ordinary shares of \$10 each.

The vendors, the McDawin Constructors Company, Limited, have agreed to give as a bonus, with each block of fifteen preference shares, one lot in the McDawin Sub-division at Wetaskiwin, Alberta, to be selected by the vendors. The McDawin Sub-division is the east half of section 10, Township 46, Range 14, W. 4th, and from its position, with regard to the main portion of the city, the vendors consider that each lot will realize not less than \$150 within a reasonable time. After providing for this bonus, the remainder of the subdivision is to be transferred to the Company with the other assets of the McDawin Constructors Company, Limited. When it is considered that the shares now offered carry a fixed, cumulative preferential dividend, at the rate of 8 per cent per annum, and in priority to ordinary shares, both as regards the dividend and for the return of the capital in case of liquidation, this should prove a most attractive investment even without the bonus.

### More Sidewalk Applications Granted

An adjourned meeting of the city council was held on Tuesday evening, with all the members present except Ald. Olin, who was out of town.

The light and power committee reported that they had gone carefully into the tenders for the new machinery, in conjunction with Mr. Watson and two other experts, and recommended the purchase of certain machinery, which will give the names of the successful tenderers when the contracts are signed.

After a brief discussion, it was resolved to grant the application of Mr. Watson for a power house for a couple of days to report on certain machinery at the Rosehill-Anderson coal mines near Otonabee. Ald. Dudgeon strongly objected to giving Mr. Watson permission to leave the power house, but he was out numbered, and the following motion was passed on the minutes: "Resolved—That Mr. Watson, superintendent of the power house, be given permission to visit the Rosehill-Anderson Collieries at Otonabee, in order to give expert advice regarding the machinery at the mine. Carried."

A letter was read from the Herald of Rotary Engine Co., Limited, offering a couple of thousand bricks for sale. Edmund-Dudgeon—That the matter be referred to the light and power committee to obtain information regarding same and report. Carried.

A letter was read from the Herald of Rotary Engine Co., Limited, offering a couple of thousand bricks for sale. Edmund-Dudgeon—That the matter be referred to the light and power committee to obtain information regarding same and report. Carried.

The petition for a concrete walk on the south side of Lansdowne St. from Railway street to McDonald St. was granted.

It was moved by Compton—That a crossing be put in on Pearce street from J. H. Walker's corner to Chief of Police James' corner. The motion was carried.

For—Ald. Compton, Ellis and Mayor Knox. Against—Ald. Dudgeon, Edmund and Gross.

The petition for water and sewer connections from F. L. Thompson, J. J. Ford and others to J. J. Randolph and others be referred to Mr. Crane for report.

Ellis-Compton—That the application for concrete walk on the north side of Pearce street from Dr. Walker's corner to J. H. Staples' and on the south side of Pearce street from the Bijou theatre corner to Roy street be referred to the engineer to report on the approximate cost and the probability of getting material. Carried.

D. C. McLean addressed the council asking the co-operation of the members in the big 12th of July celebration. He was assured that the council would do everything possible to make the day a big success.

Ellis-Edmund—That the clerk write the commanding officer at Fort Saskatchewan asking for three mounted men to act on July 12th with Corporal in keeping order. Carried.

Dudgeon-Gross—That a civic banner be obtained to be used on occasion of the Orange celebration. Carried.

Compton-Edmund—That the Board of Trade committee take such steps in conjunction with the Board of Trade as may be deemed desirable to officially welcome the Made-in-Canada train to the city on Tuesday next. Carried.

The clerk reported that there had been \$2,114.23 income tax collected up to June 5th. After a brief discussion it was decided to take definite action to collect the balance outstanding.

The chief of police was empowered to destroy all dogs not wearing the 1912 city tag on or after June 15th.

Dudgeon-Compton—That the city purchase an additional horse to be used by the city engineer, the chief of police, the fire department, and that it be referred to Ald. Dudgeon and Edmund to bring in a report on the same as to a suitable and valuable horse, and the price to be paid. Carried.

Meeting adjourned.

Anyone requiring literature explaining conditions in the Wetaskiwin district to send to their friends can secure the same on application to the Wetaskiwin Board of Trade.

A Rubra spent the week-end in Edmonton with Mrs. Rubra, who recently underwent a serious operation in the hospital. Her many friends will be pleased to learn that she is convalescing as well as can be expected.

Mr. and Mrs. Andrew Green who returned on Tuesday afternoon from a honeymoon trip to the mountains, are now receiving the heartiest congratulations of their host of friends. They are also receiving a very large number of telegrams and valuable presents, and desire to sincerely thank the donors for their kind remembrances and expressions of good wishes.

The Board of Trade held a very lively and enthusiastic meeting in the Board of Trade offices Wednesday afternoon at which many subjects of interest were discussed.

A delegation consisting of D. C. McLean and T. Spencer of the L. O. L. waited upon the Board in connection with the Orange celebration which will be held here July 12 and asked that the board co-operate with them in entertaining the many visitors. They also asked that the publicity department of the board get up a sports programme, the lodge to furnish the list of events and board of directors to programme out as they see fit. It was decided to do this and the board will canvass the merchants in the city for advertising in this programme. Delegates were appointed to attend the Western Canada Panama Canal convention to be held in Calgary June 25-28. This is one of the important events of the year and there will be a large number of visitors.

Arrangements were made by the board for the entertainment of members of the Made-in-Canada train which reaches here Tuesday, June 18th. In this the board will act in conjunction with the council.

A committee elected by the council to act in connection with the Board of Trade on any matters pertaining to these two bodies was present and was also His Worship Mayor Knox who has recently been added to the committee.

The board also took up another matter, which for the present cannot be divulged, but however which if it comes to pass will mean much for the city of Wetaskiwin.

In the absence of President Craig, Vice-President Miller took the chair and those present were: Messrs. Staples, Loggie, Montgomery, Fowler, Rubra, Gillis, Mayor Knox, Ellis and Compton.

### Agricultural Society Meeting

A meeting of the directors of the Wetaskiwin Agricultural Society was held in the city hall on Saturday afternoon last, with the following directors present: Pres., W. Dudgeon; 2nd Vice-Pres., Amos Doupe; Secretary, F. W. Gross and Messrs. H. T. Rix, U. St. John, Lew. Hutchinson, Morris, A. W. Rix, Ned Linden and C. D. Binman and J. Berry.

After the adoption of the minutes of last meeting, F. W. Gross, delegate to the Fair Convention at Calgary, gave a lengthy report of the proceedings at the convention.

An effort will be made to have the fair in this department since the fair and the following committee was appointed to interview the council to have the lights installed.

### Town Topics

The Gladiators Club will hold a dance on Tuesday evening, at the west end of Angus' assembly hall. No formal invitations are being sent out.

Mr. and Mrs. Thos. Ambler made a trip north on a visit to their children. They say it is a fine country and had they been younger would have enjoyed the trip much more. They returned home on Friday last.

M. Mecklenberg, A. M., the famous eye specialist, of Edmonton 313 Jasper St., phone 5225, will again be in Wetaskiwin, at his permanent office over Bailey's Jewellery store in the Compton Block, on July 2 and 3. Your eyes will be properly attended to if you consult this celebrated eye specialist. Charge moderate. Satisfaction guaranteed.

Mrs. W. Badry was in the city on Monday last, on her way home from the Rochester, Minnesota hospital, where she underwent a surgical operation for a long and serious illness. She speaks highly of the treatment received while a patient in that institution. We are all glad to find that she is getting on her feet and is a strong, healthy woman.

The hand will play if fine tonight. They have had a hard time to practice during the past two months, sometimes even going into the stable now thanks to courtesy of Messrs. Higgins and Treanor for themes on Pearce and McDonald street. During the last week they have been soliciting contributions and have something over \$60.00 of which goes towards the hand stand, the balance towards a new instrument. The boys have been liberal in this respect, for besides spending over \$70 for music they have bought a more durable and a better one.

J. W. Jones of the Winnipeg Judicial Bureau, who has been on a tour of the West was a visitor in the city yesterday and was a guest of Mr. J. J. Olin, public relations commissioner. Mr. Jones was taken for an auto ride around the city and expressed amazement at the size and growth of Wetaskiwin. He said "I am greatly surprised at the size and growth of Wetaskiwin. It has been a revelation to me and I want to say you have one of the finest little cities in the West. I don't know I really thought Wetaskiwin was a small station between Lacombe and Camrose and I can honestly say that this is the best city I have been in for a long time. It is by far the best city on the C. and P. line and I think it has a great future. You also have a fine lot of business buildings and a lot of credit to a city ten times the size that this city is and that is something to be proud of. Wetaskiwin is a city of the future and publicity should come to the front as one of the best and liveliest cities in the West." Mr. Jones left last evening for Winnipeg.

**HOUSE AND FURNITURE FOR SALE.** Good new modern house, five minutes walk from post office, for sale at a snap if taken at once. Also a fine lot of furniture, which is also new, will be sold at cost or less. For particulars apply at The Times office. 12-47

**BUSINESS BROKERAGE.** OUR specialty. If you wish to dispose of your business or buy, Satisfaction guaranteed. Write to us or call on us. The Edmonton Business Agency, Suite 12, Phone 4767, Alberta Loan and Investment Block 656, 1st Street Edmonton. 12-91

MRS. W. A. MACFARLANE,  
Certificated London and Trinity Colleges of Music  
Teacher of Piano and Theory.  
Dried Block, Wetaskiwin, Alta.

## The Churches

Norwegian services will be conducted in the Swedish Lutheran church next Sunday morning at 10.30. June 16th, by the Rev. J. P. Postvatt.

**CATHOLIC**  
The new Catholic church will be dedicated by the Bishop of St. Albert, Sunday, June 16th, at 10 o'clock sharp. After this ceremony the mass will be celebrated, and the sacrament of confirmation administered to the faithful. A most cordial invitation is extended to all.

**METHODIST**  
The pastor will preach at both services next Sunday. Sunday school at 2.30 p.m.  
The choir meets for practice on Friday evening instead of Wednesday as formerly.  
Flower services will be held on June 10th.

**BAPTIST**  
"Dry Bones" will be the subject at the morning service and "Treasures in Heaven" the subject in the evening. Sunday school and bible classes at 2.30 p.m. G. F. McNally, B. A. the superintendent. A. Gordon, the pastor.  
Prayer meeting on Wednesday at 8 p.m. when the topic for bible study will be "Jesus' Conception of the Kingdom of God."

The children's meeting on Monday evening from 7 to 8 p.m., offers special attractions free of charge. They are preparing dialogues and drills for a children's concert in the near future, while the boys have organized a football club. Now is the time to join us.

## Town Topics

Miss Lillian Lindskog has accepted a situation in the photo studio of F. L. Talbot.  
Messdames A. E. Millen and Tracey Walker were visitors at Edmonton during the past week.

John Callaghan, of Dayland, was in the city this week renewing acquaintance of his many friends.

A. A. Ellis of the Wetaskiwin Produce Co. made a business trip to Ponoka on Tuesday.

Mrs. C. O. Swanson left for Calgary on Monday where she will visit her daughter, Mrs. A. T. Kinsair.

Mr. and Mrs. Wes. Gould went to Calgary with their son to consult an ear specialist in connection with an affection from which the boy is suffering.

Wm. McCallum made a trip to Banff last week. He reports that the summer tourist season has commenced in earnest and hotel accommodation was at a premium.

We are informed that a number of substantial buildings are to be erected on the east side of Railway street during the coming summer, definite announcement will be made in a few days.

Mrs. R. W. Conn and daughter who have been visiting at the home of the former's daughter, Mrs. H. K. Outway, left on Monday morning last for Vernon, B. C., where they will make their future home.

Do not give your family food made with alum baking powder. Use Mag's Baking Powder. Costs no more than the ordinary kinds and is 'guaranteed' not to contain alum. All ingredients are plainly printed on the brand you are now using. All up-to-date Grocers sell and recommend 'Magie.'

A most enjoyable dance was held in Angus Assembly Hall on Tuesday evening in honor of the wedding of Andrew Gert to Miss Hageman, of Ponoka. The bride and groom just returned on the afternoon train from their honeymoon trip to the mountains. About fifty couples were in attendance, and the hall was nicely decorated for the occasion. The music was of the best, being furnished by Walter Orchestra. Delightful refreshments were also served, the catering being done by the City Bakery.

**EXTRA ATTRACTION.**  
The World's Greatest Fighter, Mr. Bob Fitzsimmons will positively appear at the Angus Theatre on Monday June 18th in the four act drama "A Fight For Love," written especially for him by Hal Reid. He will be ably supported by Miss Maybelle Lyman, and a strong cast. This attraction will without doubt prove to be the best drawing card of the season. It shows Fitzsimmons in his training quarters, in the great arena, also an actual horse-shoeing scene in the village blacksmith shop, where he makes a horse shoe in full view of the audience.  
This will be the last opportunity of seeing this famous celebrity. Seats at Bailey's.

By EVANGELINE

## JOHN THE GREAT

June 16th. Matt. 11:2-19.

John The Baptist having  
been in prison a year or so  
became troubled in mind and sent his  
disciples to Jesus with this question  
—"Art Thou He that cometh or look  
we for another?"

The thought had come to him—If He  
is the long expected One why dost He  
delay to set up His Kingdom—deth-  
rone Herod—and set free those who  
do? He did not begin to smother ex-  
ulting with that axe which I saw mow  
this ago lying at the foot of a tree

The whole policy of Jesus in estab-  
lishing His Kingdom was entirely con-  
trary to the expectations of the best  
minds of the age. Hitherto every  
kingdom had been founded upon brute  
force and when no reports had been  
received the ears of the discouraged  
prisoners of "vast naval and military  
preparations" thought necessary to en-  
sure the overthrow of the Roman Em-  
pire he was tempted to doubt.

That he did not yield to temp-  
tation is evident from the fact that  
he appealed at once to Jesus. Had  
he yielded, Jesus could not have en-  
gaged a skeptic.

It was long since Satan had pre-  
sented precisely the same temptation  
to our Lord Himself who had come off  
more than conqueror. On this occasion  
as on the other, the tempter had  
chosen the psychological moment to  
raise the question.

John was a son of the desert, taken  
from the open air and confined in  
prison. He missed the fragrance of the  
oleanders that fringed the banks of  
the Jordan. He missed the songs of  
the birds, the trickling of the water,  
brooks in their haste to reach the river.  
Here he was in the midst that scene  
of remarkable desolation, in a lonely  
prison, on the brink of a precipice  
overlooking the Dead Sea. No won-  
der he was depressed.

Then, as we have pointed out, he  
probably felt that Christ was neglect-  
ing him? Why did he not put forth His  
mighty power and, burst his bonds  
asunder? Had He not come to "loose  
the prisoner and set the captive free?"

The powers of his poor human in-  
tellect were unequal to the solution  
of the mystic presented by a  
super-human temper and he did what  
every tempted soul should do.

He brought the temptation to Jesus.  
"Why comest thou temptations (asks Brown-  
ing) but for man to meet  
And master, and make crouch be-  
neath his feet  
And so he trodden down in triumph?  
Lead such temptations by the head  
and hair  
Resistant dragons up to Him who  
fights  
So He may do battle and have  
praises."

The Lord battled with the tempta-  
tion by pointing out to His herald  
that already the foundations of His  
kingdom were being laid in love—not  
force.

"Jesus answered and said, Go and  
tell John the things which ye have  
heard and seen: the blind receive their  
sight, and the lame walk, the lepers  
are cleansed, and the deaf hear, the  
dead are raised up and the poor have  
good tidings preached to them."

John was doubtless familiar with  
Isaiah's predictions regarding the  
Coming One—"Behold your God will  
come. He will come and save you.  
Then the eyes of the blind shall be  
opened and the ears of the deaf shall  
be unstopped. Then shall the lame  
man leap as an hart and the tongue  
of the dumb sing. For in the wilder-  
ness shall waters break out and  
streams in the desert."

Jesus appealed to His miracles as  
a proof that He was indeed the One  
in whom all prophecy was fulfilled.

The things which John's disciples  
saw and heard, included even the rais-  
ing of the dead, for the son of the  
widow of Nain who had only a few  
days before been called back from  
"that torrone from which no traveller  
returneth" was probably even then  
keeping close to his Saviour in great  
recognition of the wonderful fact.  
Then our Lord's words, "Blessed is  
he who ever shall find no occasion  
of stumbling in me," suggests per-  
sonal message based upon another  
prediction in Isaiah, "He shall be a  
stone of stumbling and for a rock of  
offence to Israel and many among  
them shall stumble and fall."

Christ's answer to John is the  
true answer to doubt.

The writer caught the following  
words as they flew across the dinner  
table one day, clinked them, filed  
them away for future use, and would  
now pass them along and keep them  
moving. They are not less weighty  
for having come spontaneously from  
one's "better half." "Men respect  
forces in proportion to their effects.  
Here is a force exercised by Christ  
whose effects to the human race and  
consequence have been infinite. Here is  
one whose effects challenge the scien-  
tific, whose manifestation in history and  
in the present defy contradiction.  
Doubt of, or indifference to, Christ  
discredits one's intelligence."

As soon as John's messengers had  
told their backs Jesus gave to them  
power standing by him. This mind  
concerning John—a grand testimony  
to his personal worth and greatness.

Though he may have seemed to  
them "A reed shaken with the wind,  
he was a prophet directly commis-  
sioned and inspired of God to prepare the  
way of the Lord. He was the one singled  
out from the whole human race to  
introduce "The Lamb of God who  
taketh away the sin of the world."

"Verily I say unto you," said  
Jesus, "among them that are born of  
women there hath not arisen greater  
than John the Baptist."

Great he certainly was, in his mag-  
nificent testimony to Christ—in his  
unparalleled humility—in his fearless  
denunciation of sin—in his knowledge  
of prophetic truth—in his joy in the  
Bridegroom.

"And if ye are willing to receive it,"  
he continued, "this is Elijah which  
cometh. Yet he that is but little in  
Kingdom of heaven as between John  
than he"—not perhaps in testimony  
of sin, nor in the knowledge of "pro-  
phetic truth but in privilege.

The comparison lies not so much  
between John and other men in the  
Kingdom of heaven, as between John  
as representing the last of the old  
Jewish age the least among those in  
the new Christian age.

In the remaining verses the Jewish  
leaders are compared to a set of sul-  
ky children whom He may have seen  
playing "weddings" and funerals in  
which some called out, "We played  
weddings and you wouldn't come,  
then we played funerals and you  
wouldn't join."

The Jews refused to follow their  
Lambent Master. They sulkyly  
criticized John for his austere life  
of asceticism, then they sulkyly criti-  
cized our Lord for His genial, soci-  
able way of life. Nothing would please  
them.

The lesson's message for us may be  
expressed as follows:

Blest be the man of high ideals  
Who, tried today, tomorrow, and for  
days to come,

Never lowers his staid old sur-  
stern face to defeat  
Till hands and feet, till eye and ear,  
Till mind and heart are disciplined,  
And all abilities of body and of soul  
Are marshalled by the will  
And move onward to the drum beat  
of VICTORY.

# The Great French Tonic VIGOROL

Makes Men and Women  
strong—Oatway, your  
Druggist, is the first to  
import this into Wetaski-  
win. Get a bottle and be  
healthy.

Since the introduction of VIGOROL  
into Canada the sale has been phenom-  
enal. VIGOROL is purely a tonic  
—it builds up the run-down system,  
creates a new lease of life. Every-  
body should take a tonic. The only  
question is what to take. You can  
rely upon VIGOROL as one of the  
greatest, if not the greatest, that  
man ever prescribed. Every drop of  
this wonderful French Tonic con-  
tains life. Your nerves are toned  
up to the proper tension. The  
stomach and bowels are made healthy  
and strong, while the kidneys and  
liver are cleansed and put in good  
working order. Headaches, bilious-  
ness and all blood impurities are at  
once removed. The skin becomes  
clear and healthy. VIGOROL in  
short will change your whole system  
making it pure and healthy. Mr.  
Oatway, your druggist, will refund  
your money if it fails. Price \$1.00  
a bottle.

# IMPORTANT WARNING!

THE ONLY GENUINE AND  
ORIGINAL EXTRACT OF  
WILD STRAWBERRY  
IS  
"Dr. Fowler's"

This grand remedy has been on the  
market for sixty-five years, and is, with-  
out a doubt, the best medicine known  
for the cure of  
DIARRHEA, DYSENTERY, COLIC,  
CRAMPS, PAIN IN THE STOMACH,  
CHOLERA MORBUS, CHOLERA  
INFANTUM, and ALL SUMMER  
COMPLAINTS.

If an unscrupulous druggist tries to  
talk you into taking any other prepara-  
tion when you ask for "Dr. Fowler's"  
refuse to take it, and insist on getting  
what you ask for. Price 35 cents per  
bottle. See that the name The T.  
Millburn Co., Limited, is on the wrapper,  
as we are the manufacturers and sole  
importers.  
For Sale by Red Cross Drug Store

# SOME OF THE VIRTUES OF THE HOG.

They multiply ten times as rap-  
idly as horses, seven times as rapidly  
as cattle and five times as rapidly as  
sheep. They produce one pound of  
pork live weight on 25 per cent less  
feed than do cattle or sheep and in  
proportion to their live weight yield a  
50 per cent heavier dressed carcass.  
Of a given weight of dressed pork and  
and best there is 5 per cent more  
edible meat on the hog carcass, and  
1 pound of pork will satisfy men at  
hard labor 20 per cent longer than will  
a like amount of beef or mutton.

There is no kind of meat that lends  
itself to curing purposes as well as  
pork. For this reason it is the  
staple meat on the farm. Every farmer  
should raise enough of pork to supply  
his own family and most Alberta farm-  
ers do. A few hogs are handy  
things to have around when a note  
comes due. The dairy cow to meet  
running expenses and the hog to lift  
the mortgage is a combination hard  
to beat on any farm.

# PRISONERS ENJOY FREEDOM UN- DER A NEW ARRANGE- MENT

Down Lethbridge way there are  
two gangs of prisoners working out  
in the open without guards. They  
are alone with a foreman. No watch  
is kept over them. They come and  
go practically at their will so long  
as they do their work. The camp is  
without arms and liberty, they are  
enjoying is so sweet and such a re-  
lief from prison life that they do not  
attempt to escape and consider them-  
selves very fortunate indeed, that  
they are permitted to do ten hours  
of good hard work and breathe the  
clear air of the good open country of  
southern Alberta.

This is the result of the parole  
work system recently inaugurated by the  
prison authorities and which is be-  
ing tried out in an experimental way.  
It was started only three weeks ago,  
according to Hon. A. J. McLean,  
provincial secretary and is working nic-  
ely and will probably be extended later  
to all the penitentiaries now con-  
structed. Justifies a little trust being  
placed in them by their keepers.

# NORTHERN ALBERTA HOMES STEAD MAP READY FOR DIS- TRIBUTION

A publication which should prove  
of considerable interest to the pro-  
spective settler or to the student in,  
and is now being issued from the  
Railway Lands Branch of the De-  
partment of the Interior. This publica-  
tion which is known as the Peace  
River or Northern Alberta Home-  
stead Map graphically illustrates in a  
comparatively simple system of colour-  
ing the land situation in that country.

**Baking Powder**

Is a protection and guarantee  
against alum which is found in  
the low priced baking powders.

To be on the safe side when buying  
baking powder, examine the label and  
take only a brand shown to be made  
from Cream of Tartar.

including, as it does, complete in-  
formation with respect to the dis-  
posal of lands, location of timber ber-  
ths and forest reserves, nature of the  
soil, etc. An interesting feature of  
the color scheme is the fact that it  
enables answerer to procure at a  
glance a complete grasp of the pre-  
sent land situation, not only with re-  
gard to those lands which have been  
taken up during the past year, but  
also with respect to lands previously  
homesteaded, but for which patents  
have not yet issued, thus also enabling  
a person to trace the progress during  
recent years, of settlement in the  
Peace River district. The aim in the  
preparation of the map has been to  
show the land situation up to the be-  
ginning of the present year, and the  
view of the rapid exhaustion of free  
homesteads throughout the older prairie  
provinces the information should  
prove of particular interest to set-  
tlers.

Up to date in other respects.

In addition to the information with  
respect to lands which have been  
homesteaded and otherwise disposed  
of, the publication contains complete  
information regarding Post Offices,  
Railways, Topography, etc.

### WHAT TO DO IN A THUNDER-STORM

The season of thunderstorms has opened and in no country are the electric marvels of the atmosphere more imposingly displayed than in America. They are among nature's most magnificent spectacles.

We should learn to look upon these without fear. They are full of danger but their perils can be almost completely eliminated by proper precautions. All fatal accidents from lightning are due to such precautions. Lightning rods, properly placed and cared for, furnish an all but absolute protection for buildings. Great cities are so full of ready-made tracks for electric discharges that violent thunderstorms, passing over them, seldom cause any serious damage by lightning. The sudden gusts of wind do more harm than the electric discharges.

Cattle and sheep are apt to gather about isolated trees, or along wire fences during a thunderstorm, and they are sometimes killed in groups. A person caught in a thunderstorm while in the open country should keep a hundred yards away from anything that may happen to stand in the field. In a dense woods he is safe if he does not place himself under some tall tree. Eight or nine persons have been killed by a single stroke of lightning while sitting under an isolated tree. It is a ready path to the ground. One should also avoid the neighborhood of a body of water.

The cause of lightning is the accumulation of electric charges in the clouds. These charges flow stronger as the particles of water in the cloud coalesce to form large drops. Electricity resides on the surface of the charged particles, and as they coalesce the surface increases proportionally less than the volume. The consequence is that the electricity contributed by each particle to the united mass has less space to spread itself over than it had when the particles were separate. It follows that the combined charge on the surface of the larger drop is more intense than were the charges on the separate particles. In other words, the "potential" of the charge is increased. The whole cloud becomes heavily charged as its countless multitude of drops grow larger and larger.

At the same time, through the effects of what is called "induction," a charge of the opposite kind is produced on a neighboring cloud or on the earth beneath. As these charges increase in intensity they strive to burst across the intervening air, and if the potential becomes sufficient they do so. Their result is a lightning stroke.

The spark from an electric machine is a baby lightning stroke. As the disk of the machine is turned, more and more electricity accumulates on the polished knob called the conductor, until the surrounding air can no longer resist the strain, and then a spark passes between the knob and some object placed near on which a contrary charge has been produced by the curious property of induction.

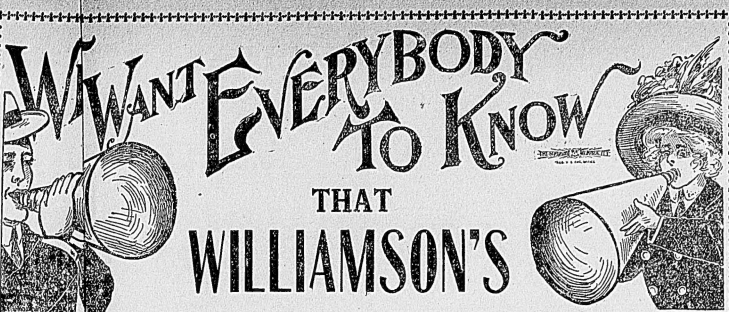

But the spark from the most powerful electric machine is but a few inches in length, while a lightning stroke may be from a mile to ten miles long. No sudden phenomenon of nature, except perhaps a volcanic explosion, is more startling suggestive of terrific power than a bolt of lightning. Considering the immense number of strokes that fall from cloud to cloud and from cloud to earth during a severe thunderstorm. It seems wonderful that lightning is not more destructive than experience has proved it to be.

Our relative security is due to the fact that most of the charges take place between clouds, and that when the lightning strikes earthward it usually has an infinity of points presented to it, which offer ready ways for its escape and dissipation. This is why isolated objects, especially if they are long and pointed at the top are the most liable to be struck. Tall, pointed objects, especially if they are metallic, strive to draw off the electricity from the cloud without an explosive discharge.

The grandeur of an electric storm is vastly increased by the thunder. Many persons find that more terrifying than the lightning. Thunder is produced in the atmosphere by the sudden expansion produced by the passage of the lightning. The heated air expands with great force, and immediately the vacuities are filled again thus producing atmospheric waves which impress the ear as sound. If the stroke occurs nearby, the thunder follows almost instantly, in a sharp clap. If the lightning is at a distance from the observer, the thunder follows the stroke at an interval depending upon the distance.

Sound travels in the air about 1,100 feet per second. The distance of the lightning stroke can easily be calculated by observing the number of seconds which elapse before the thunder begins. It is only necessary to multiply this number by 1,100 in order of the lightning. Successive peals of lightning following a single stroke are due to the successive arrival of different sound waves produced at varying distances from the observer by the passage of the lightning. As we have seen, a lightning stroke may be many miles in length. Variations of density in the air tend to separate the sound waves and make them arrive in peals instead of in a continuous roll.

It is an old adage that "thunder sours milk." If it is any effect this kind it must be due to the electric state of the air rather than to the thunder. The great heat which often accompanies a thunderstorm, may cause a sudden development of ferments in the milk.

### COLIC HORSES

Of all the evils a horse-flesh is heir to, colic is the most common and most distressing. It is often the result of the simplest mistake, unfortunately too often made by the most skillful and experienced veterinary surgeon. Often the simplest they prove effective, but, unfortunately they too often prove worse losses.

There is no cure for colic. Every case must be treated on its merits.

For all practical purposes colic is of two kinds viz., spastic, and tympanic or "windy." The cause of both will be found in connection with the digestive organs, the liver, stomach and alimentary canal. The chief cause are too sudden a change from one kind of food to another and changes should be gradual and cautious; overfeeding and indigestible grain, partly fermented grain, dusty monkey hay, too new and frost-bitten oats, straw and hay, too much work on an empty and fatigued steed, too long exposure in wet and cold weather, irregular and long intervals between feedings, over exertion on empty or full stomach, want of exercise as from standing too long in the stable and in frequent occurrences of cold and "impaired digestion," as in the wind and crib-biting and the pressure in course of formation calculus the bowels. Whatever the cause, prompt is the better cure, and the it preventive measures are to see that a horse is of good quality, free from indigestion and get frequent feed and water (little and often), giving laxatives and exposure to wind and cold.

Get in touch with your veterinarian as soon as possible. Mean-time much can be done the way of first aid in spasmodic by administering an old-fashioned provol effectual draught, viz., castor oil one pint, tincture of opium two ounces, thoroughly shaken together and given at one draught, passage or rubbing the abdomen with towels of hay or straw, animals of firm water and many animals and to which a handful of common salt is added in Tympenic or "windy" colic, give half an ounce of peppermint in a pint of cold water or give a pint of cider water and repeat every twenty minutes, and a very effect remedy and often gettable in half pint of whisky or gin in a pint new milk great care being always preserved

that the horse and not the man gets most of this stimulant, to give the poor horse any of the much certified cure all quick remedies—most of them are worse than useless and are strangers to any genuine remedies medicine.

Always have by you a few bottles of colic medicine made up by your own reputable veterinary surgeon, their keep costs you nothing but they may save the means of saving the life of a valuable animal.

### PRICE OF CEMENT IS AGAIN REDUCED

For the second time within a period of six months, a reduction of ten cents per barrel in the price of Portland Cement has been announced by the Canada Cement Company.

This latest decrease is effective, according to the Company's announcement, at all points in Canada west of the Lakes.

A previous reduction of ten cents per barrel was made last November, so that the total drop in the last six months is twenty cents a barrel, west of the Lakes; and ten cents east of the Lakes.

Representing an enormous saving to the cement consumers in Western Provinces.

### HAD DYSPEPSIA FOR TEN YEARS

COULD NOT KEEP ANYTHING ON HER STOMACH

Dyspepsia is caused by poor digestion, and to get rid of this terrible affliction, it is necessary to place the stomach in a good condition. For this purpose Burdock Blood Bitters has no equal.

Mrs. Norman A. MacLeod, Port Ebert, B.C., writes:—For the last ten years I suffered dreadfully with dyspepsia, and I could not keep anything on my stomach. I tried several kinds of medicines, but none of them seemed to do me any good. At last a friend advised me to try Burdock Blood Bitters, which I did, and after using five bottles I was completely cured. I would advise any one troubled with stomach trouble to use B.B.B. I cannot recommend it too highly.

Burdock Blood Bitters is manufactured only by The T. Milburn Co. Limited, Toronto, Ont.

### NORWEGIANS OF CAMROSE CELEBRATE NATAL DAY OF MOTHER LAND

Camrose, June 7.—A gathering over one thousand people at the Camrose fair grounds this afternoon showed the wide interest that was taken in the celebration of Norwegian Independence day. The committee in charge of the day made the attractions two fold in character. One important feature was a patriotic demonstration in which the Norwegians commemorated with pride the establishment of the Norwegian monarchy.

Prof. Landberg of the Camrose Lutheran College sketched the important part that the people of Norway have taken in the civilization of the world. There was the Saxon blood which flows in the veins of many of the crowned heads of Europe. He pointed to the disposition of the Norwegian people to build churches and found institutions of learning wherever they go. He said that Norwegians discovered America 960 years before Columbus, and that it was fitting they should celebrate Independence Day in the country of their adoption.

In conclusion he called upon people of all nationalities to be true allies loving subjects of the British throne. Geo. P. Smith, M.P., made a stirring speech in which he said Canada was fortunate in having the best of other races like Norwegians to make up her citizenship. He remarked on the attraction of Norway for tourists, her love of the north and the strength of her commerce. It was an inspiring sight to see the patriotism of Norway and he rejoiced with them because they would be as ready to celebrate with native Canadians on the natal day of the Dominion.

Mr. Smith thought Canada had battles to fight and wanted the highest citizenship the land could be proud of. The history of Norway showed they were capable of building up strong virile democracy in this new land. The first person followed with an eloquent historical speech. The program was interspersed with songs and selections by the college band. The sports of the day included baseball and football games, foot races, and various athletic events. The Camrose ball team defeated Beetham by a close score of 8 to 7. Dayland defeated Camrose 1 to 0 in a hard fought game of football.

### A RED LETTER DAY AT SPRING LAKE

The 26th of May was a gain and red letter day at the St. Boniface church, Spring Lake. All roads seemed to lead there, the Alberta sun shining brightly on an immense throng of people assembling, in fact, the biggest crowd gathering that ever came together at any celebration in this district. Of course Spring Lake with its present mantle of verdure forms one of the prettiest spots in Sunny Alberta.

His Grace, Bishop E. Legal, of St. Albert, dressed in his pontifical robes in the parish house and was conveyed by the priests to the church, where he was received by the entrance by Rev. Father J. Seltmann, O. M. I., the pastor, of the Catholic Foresters, in full dress, doing the honors. The church choir sang the Mass and when His Lordship entered the church High Mass was celebrated by Rev. Father J. Seltmann, Teck, of Daysland, and J. Schultz, O. M. I. as deacon and subdeacon. Rev. Father Legal, O. M. I. of St. Albert, a pioneer priest of Alberta, being fifty-four years in western Canada, gave a powerful sermon on the feast of Pentecost and the sacrament of Confirmation. One hundred and twelve young people, fifty-six boys and fifty-six girls were then confirmed. J. J. Nierengarten, a prominent citizen of Strom, and Mrs. A. P. Zacharias, the popular teacher of the Grove school, being the sponsors respectively.

As most of the people came from distant points, the ladies of the church had prepared a sumptuous lunch and dinner, and all comers were more than pleased at the excellent fare that was provided, and which most certainly satisfied the needs of the vast crowd.

In the afternoon, His Lordship proceeded with the priests to the blessing of the St. Boniface Bell, the second biggest in Alberta. Mrs. A. K. Rietz had highly decorated it with a white silk dress, ribbons and natural roses. About fifty sponsors were at hand and with the crowd listened to the priest's incantation and prayers. Quite a heavy shower fell during the progress of the ceremony, but failed to dampen the deep interest of the eager spectators. A sermon in German by the Rev. Father J. Seltmann, O. M. I., and the Benediction of the Most Blessed Sacrament given by His Lordship, concluded the eventful day. The receipts towards the bell amount of over \$300.—Press.

### THE CONCERT IN THE EVENING under the auspices of the Camrose Lutheran College was a great success. This was followed by a fireworks exhibition, the best ever seen in Camrose. A half holiday was taken by the merchants and the whole town was in the best holiday humor.

### TORTURED FROM BABYHOOD

"Fruit-a-lives" Cures Constipation

MISS E.A. GOODALL, EDMONTON, ALTA., Nov. 26th, 1911

"I have been a sufferer since babyhood from that terrible complaint, Constipation. I have been treated by physicians, and have taken every medicine I heard of, but without the slightest benefit. I finally concluded that there was no remedy in the world that could cure Constipation.

About this time, I heard about 'Fruit-a-lives' and decided to try them. The effect was marvellous.

The first box gave me great relief, and after I had used a few boxes, I found that I was entirely well.

'Fruit-a-lives' is the only medicine that ever did me any good and I want to say to all who suffer as I did—'Try this fruit medicine and you will find—as I did—a perfect cure'.

(Miss) E.A. GOODALL

'Fruit-a-lives' is the only medicine in the world made of fruit and the only one that will positively and completely cure you of Constipation.

See a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

### SUICIDE NOT IMPROBABLE OF AGED RESIDENT NEAR LACOMBE

Lacombe, Alta., June 9.—About 3 o'clock last night Corporal Wells of the mounted police here was notified that Henry Bauer, a well known farmer living about eight miles west of Lacombe had been found dead behind the granary on his farm. The officer immediately went to the scene accompanied by Coroner Sharpe. The man had been dead for some hours before the discovery was made by R. L. Glover, a neighbor. Beside the corpse were found two bottles, a glass and a pitcher of water. One of the bottles contained weak alcohol and the other apparently a mixture containing gin. The latter bottle will be sent to the government laboratory for analysis. In the opinion of the officers it is a case of suicide, but the matter will be

### WAS TROUBLED WITH HIS HEART

HAD TO GIVE UP WORK

Mr. Alfred Male, Elmdale, Ont., writes: "I was troubled with my heart for two or three years. I thought, sometimes that I would die. I went to the doctor, and he said he could not do anything for me. I had to give up work. My wife persuaded me to try Milburn's Heart and Nerve Pills. The first box relieved me, so I kept on until I had taken seven boxes, and they cured me. I would not be without them on any account, as they are worth their weight in gold. I advise my friends and neighbors who are troubled with heart or nerve trouble to try them."

To any of those suffering from heart or nerve trouble we can recommend our Milburn's Heart and Nerve Pills with the greatest confidence.

Price 50 cents per box, or 3 boxes for \$1.25. If your dealer does not have them in stock, send direct to The T. Milburn Co., Limited, Toronto, Ont.

### The Note Book

By "GILL"

Advertise Wetaskiwin.

Summer seems to catch us with our winter flannels on.

You can't interest a June bride in the steady advance in real estate values.

Boost Wetaskiwin now.

The one legged man who is walking around the world will just have to keep pegging away.

Every body help to boost this city right.

Don't you think a little more ginger and optimism in this city would help?

Every little bit helps.

Owing to an accident to his German car, an Italian was prevented from winning the American automobile championship.

One of the new comers in the field of aviation is Mr. Spudinski. A good name to stay on the ground with.

Swat the fly.

It's lucky there is no speed limit set for the rate of progress in the city of Wetaskiwin.

While the future is brightening, none of us will object if the present takes on a little more polish.

Amundsen now proposes to go to the north pole for the purpose of finding out whether it was really discovered by Peary. If Wetaskiwin was not going ahead by leaps and bounds we might develop an interest in this matter. What Ho.

Even the Little Old Eye Opener is boosting Wetaskiwin. Oh there's nothing to it, sooner or later they'll be all coming our way.

Civilization goes marching on. The U. S. battleship Texas is said to be the "greatest machine" ever invented for killing men.

Well don't you think it's about time you dropped that grouch and got busy, real busy too, and started to boost for Wetaskiwin.

Boost Wetaskiwin, boost, boost, boost and keep on boosting.

A Calgary doctor says that taking a sip of lemon before a kiss will render the germs harmless; also the pucker more attractive. June brides take notice.

Since the waiters of New York have gone on strike one may go to that city and not be robbed.

Oh your automobile factory. Honk, Honk.

The next attraction will be the battle of the Boyne, on July 12th.

There will be a large number of visitors present and Mayor Knox and the council are doing everything in their power to hold the local lodge out in this matter. The Board of Trade will also render every assistance possible to make this the greatest occasion in the history of Wetaskiwin.

The dog poisoner is again in our midst. Last week Geo. L. Owen lost two valuable dogs from this cause. He is offering a reward of \$50 for information that will lead to the conviction of the guilty parties.
